

Green Paint System

GPS 650125 - 650190

- Save time with the ultimate paintflow of the GPS
- In comparison to LDPE, the PET-liner collapses faster and more efficiently
- This leads to a superior spray pattern and less time spent on the paint job
- The ultra-thin PET liner is designed to have minimal friction with the paint
- You get more paint flow, a flawless finish and a smooth experience throughout
- The ingenious design of the GPS reduces left over paint and helps you achieve the best possible yield
- Reusable outer cup with 10 different mixing ratios, optimized height-width dimensions for more accurate measuring
- Lightweight lid with integrated strainer
- Store leftover paint easily with the closing cap
- Packed in a handy dispenser box : use together with our wall mount (WMG 00) to conveniently attach the box to the wall in just a few seconds
