

## Finishing film discs Ø 150mm - 15 holes

### SFDE

- Premium film abrasive for matting and paint correction
- Aluminium oxide grain, Polyester film backing
- Very fine scratch pattern for fast and easy polishing
- Ultra-flat and smooth film backing
- Specially developed stearate layer for less clogging and longer lifespan
- Intended for dry sanding only
- For best results use on a 3 mm deviation DA sander with a 5mm interface pad (SAM 37)
