

Portal rotating panel stand

EQU 64

This mobile panel stand features a rotating central axis that can be locked at various angles using a foot pedal. It comes with axis extensions to accommodate two doors side by side, along with 4 vertical supports with hooks and 2 supports with holes. When packed, its dimensions are 149cm x 23cm x 16cm, with a maximum load capacity of 50kg. The stand itself weighs 26kg.
