PNEUMATIC COMBI SEALANT GUN

CSG 00

CSG 00

Pneumatic combi sealant gun

- Processes both plastic and aluminium tubes (290 & 310 ml)
- For use with regular sealants & adhesives (MSA 100) and sprayable seam sealants (SSS 100-400)
- Reproduces the OEM structure of the seam
- Super easy maintenance: no plugging and blocking of the spray opening, no disassembly, no hassle to remove cured product
- Sprays both coarse and fine structure by using a different outer nozzle
- Inner spray nozzle easy to clean or to replace
- Separate air regulation for product quantity and spray pattern
- Easy to adjust to any desired structure
