TECHNICAL DATA SHEET

DRW05 Dry wash 5L

Description

Finixa DRW05 is a product that can be used to clean the car without using any water. Encapsulates dirt particles making them easy to remove; does not scratch, not even on dirty surfaces. Gives a water-repellent and streak-free finish with a deep gloss. 1 litre cleans about 6 to 8 cars.

Features:

- Colour: transparent - milky white
- Odour: citrus
- Made of natural beeswax

Application:

Do not use or process Finixa DRW05 in direct sunlight or on a warm surface. Always finish one panel at a time preventing the product to evaporate too quickly.

Spray Finixa DRW05 onto the surface to be cleaned using LSP20 or LSP30 atomiser. Allow 20 to 30 seconds for the product to take effect and then wipe off with a microfibre cloth. We recommend always using 2 microfibre cloths MFS40 (microfibre cloths specifically for use with DRW05). One cloth to pick up the dirt (red-bordered cloth), and one to finish off without any stripes (green-bordered cloth). For more heavily soiled cars, the use of several sets of cloths could be necessary.

Packaging

5-litre canister.

Storage and shelf life

Store in a frost-free place.
